THE DIFFERENCE IN THE RE-PUBLICAN PARTY.

VERY true Rethe difference in the Republican ranks. But having come up to them every Republican can well read the following plain state-

POLITICAL TIDE.

The following summary of the result in sixteen States which have been considered doubtful during the campaign is from the Philadelphia Press:

Indiana-Chairman Gody is confient of an overwhelming majority for McKinley, the State ticket, and the Legislature. He expects to carry every Congressional district, but one, and that is still fighting ground. Michigan-The Republican State

Sullivan, Republican, will be elected Governor over John R. Rogers, Populist fusionist, by a majority of 5000. The Republicans predict a landslide. It is possible, however, that the free silver Electors will get a small majority, as they will poll the full strength of the party. James Hamilton Lewes, Democratic fusionist, and W. H. Doolittle, Republican, seem to be in the lead for Congress

Wyoming-There is no longer any doubt that Wyoming will cast its electoral vote, for McKinley and Hobart, but the majority will not be over 1000. The Republican nominee for Congress F. W. Mondell, will be elected by a plurality of over 1500.

Missouri-The result in this State depends upon the sound money Democrats. If they vote as seems likely for McKinley, the Republicans have a fighting chance of success. The Republican National Committee began its campaign in this State rather late, but is making a vigorous fight now. All in all, it looks as though McKinley will get the electoral vote of Missouri by a plurality of between 2000 and 3000.

Wisconsin-It is only a question of how large the Republican majority will be in Wisconsin. McKinley's plurality will be at least 60,000 and ten Republican Congressmen will be elected. The Republicans will also carry the

Oregon—Republicans claim that Mc Kinley will carry the State by 5000, and from present indications their estimate is not high. The results deend upon the vote in Portland and this county. The State, outside of Portland, though claimed by the Fusionists by 5000, will possibly go for McKinley by 1500, and Portland and this county will give a Republican ma-

that the end of the silver boom has come, and in its place there has set in a tide of protection feeling that will land California in the ranks of the Republican States. It is in the conservative belief that McKinley will carry the State by 5000 plurality. The Con gressional delegation will be a mixed affair. At the present outlook Thomas V. Edward Rosewater, editor of the "State," says that his reports are not quite complete, but they indicate a safe plurality for McKinley electors. Chairman Dahlman, of the Democratic State Committee, said to-day there is not a particle of doubt that Bryan will carry Nebraska by at least 15,000.

Chairman Post, of the Republican State Committee, says a most conservative poll of the State just completed shows a clear Republican majority on both State and nat-

onal tickets of not less than 18,000. North Dakota no longer can be counted as among the doubtful States, but as safe for a good majority for the Republican party. It is now believed from careful investigation, that the entire Republican ticket will be elected by an average majority of from 4000 to 5000, and that McKipley will have a majority over Bryan of from 8000 to 12,000. The Republicans expect also

This is less than half the polls received at Republican headquarters indicate, but there is a doubtful vote of about 7000 that is difficult to classify. Hence the estimate of 7000 for the Republicans is considered

safe and conservative.

The present time appears to us as a par-ticularly opportune one for the overthrow and destruction of the system of political bribery in Delaware. The purchase of votes in this State on election day has steadily grown for the last 30 years until it has reached enormous proportions. The evil has reached such magnitude that it has tainted every election, and no longer is the Barham, Johnson, Hilborn and Mo-Lachlan, the Democrats, Maguire and Castle, and the Populist Kinne.

upon as a matter of course.

There are hundreds of men in all parties who deprecate the evils of buying votes but who have not the courage to move against the monster. Let such combine now. The evil must be destroyed or decent government will fail. The time is op-portune for its destruction. Within a few

To Our Correspondents
To put two columns of matter in or column of space is often the difficult task that confronts the TRANSCRIPT on Friday mornings, and if our regular correspondents would send in their weekly news letters on Thursday morning instead of a day later much of the difficulty would be obviated and we would be spared the very delicate they themselves would be spared the trial of having their contributions mutiliated by the ruthless hand of the editor, who is so discriminating and mercenary as to give space to an advertiser who comes late instead of the correspondent whose letter might have come earlier. We want the news, all the news and the latest news esnews, all the news and the latest news especially, but we are convinced that our weekly letters could, for the most part items of interest a day later, send them on in addition to the first letter. The advertisements are the very life of a newspaper and we cannot afford to neglect our advertisers even for the best of correspondents. We sympathize with the latter in their chagrin and dismay at seeing when the chagrin and dismay at seeing, what to them, was the best part of their contributions, left out, and the surgeons knife is not used with greater reluctance than is the dedicts blue pencil upon certain letters that are among the weekly contribution to the Transcarr's budget of news. To all such we say come earlier, and you'll fare better, but if you can't come early, come any how, but don't soold if we "cut" you.

DEMOCRATIC MEETING.

There were several hundred ci Delaware and Maryland assembled in Mid-letown on Wednesday afternoon in at-endance upon the Democratic meeting. There was general disappointment, and regret because Senator Gorman failed to ap ear according to announcement. A larg atand had been erected on the "tennis lot," corner South Broad and Green streets, and was decorated with flags and bunting. Mr.;
W. A. Comegys presided, introducing Congressman Turner of New York City as the first speaker. Mr. Turner talked about the money question to the gratification of his silver hearers, the burden of his thought being that the people want more money He failed to tell them that the per capita circulation to-day is nearly 25 per cent greater than it was in 1873 when "silver was struck down," nor did he explain how the people are to get any of this "free silver". His reference to the Sound Money Demo crats and the present administration was in very bad taste, his estimate of their strength being "about 4000 in the nation." But the part most criticised was his reference to Major McKinley's failure beause he was security for a friend. By incrence he tried to make it appear that Mark Hanna has a financial claim on Mr. McKinley which Mr. McKinley must pay, though he bore testimony that he though the Republican candidate a most hor

he second speaker. After him Mr. Milton Hawkins and Mr. Harry A. Nowland spoke briefly. Mr. Handy confined himself to local matters, the pre-arranged queries and answers between Mr, Turner and Mr. Handy sounding very much like boys at school playing amateur theatricals. They acted their parts well and it was very enjoyable whether one saw the hum erious side as they intended Mr. Handy complimented everybody except his whilom friend Addicks who came in for a general denunciation, ending with reading the following affidavit:

STATE OF DELAWARE, NEW CASTLE COUNTY. \$88. Be it remembered, that on the 28th day of October, A. D., 1896, personally appeared before me, Edwin R. Cochran, Jr., a notary public for the State of Delaware, George D. Crossland of St. Georges hundred, New Castle county, State of Delaware, who deposes and says that on the 24th day of October, A. D., 1896, he was approached by one John M. Clayton, of St. Georges hundred, county and State aforesaid, and that the said John M. Clayton made certain pro-posals to him, to-wit: That he should use his influence to get his party (the Democratic party) to appoint him voters' assistant for his said party (the Democratic party), that when he became appointed such voters' assistant he should use his said position as voters' assistant on election day the 3d of November, A. D., 1896, for the good and benefit of the Union Republican ticket, or so-called Addicks ticket; that the said John M. een no halting, no hesitation, no retreating. There has been but one cry. 'On to Victory." Each week the exent of that victory has had to be enlarged by the conservative men who have managed this great campaign, because they decided in the beginning to claim no state until absolutely certain that the vote of that state would back up the claim made. The first announ nent of the certainty of the election of McKinley and Hobart, the consequent triumph of honest money and of the right to earn it by houest toil, and the maintenance of our National honor, only claimed 260 electoral votes just 46 more than the number necessar to elect, a little later the reports re-Agricultural Lime! ceived by the Republican managers justified raising the claim to 302 votes, and now the situation justifies the claim of 325 certain electoral votes, with a probability of 44 additional votes. In other words, there are lonly 78 electoral votes that are certain for Bryan. This last claim is made by Vice-Chairman Asley, of the Republican Congressional Committee, the man who while occupying the same position two years ago called the turn on the Republican landslide in the Congressional election in a manner that his figures were backed by actual information. The same gentleman now says that information received since Chairman Babcock recently made his

GRACIOUS manner in a woman will win friends and keep them; it is a sort of sunpower to melt the ice of prejudice and :ll-feeling, and make one feel the milk

drawn from an ice water tank. Under gracious and affable; when the weather, the gas, the dinner, the callers and various other ingredients of our life are in harmony with our wishes, how lovely we can be. But wait until a book agent appears on the scene! The grade of a woman's refinement and the extent of her graciousness can be discovered in the way she says "no" to an agent sooner than in any other way. And then public places, street cars, for of May, when a gang of men from instance, are good places in which to Wilmington attempted to control the test one's graciousness. Have you convention, and failing in this, bolted ever seen the woman who is incensed ecause the car does not stop in its and as a political force have since rec wild plight on the instant the bell is ognized the two lower counties only as pulled? She angrily asks the driver why he does not take her to the end of car, leaving every one feeling as if a cold wave had passed over them. In only to keep up its antics. societies of women this grace is especially necessary, and if it were cultivated mington do not desire representation more extensively would often save much unpleasantness, that is called by on-lookers a "row." When our candidate is elected, when the rest of the women are good-natured, when they do not crowd, when they agree with our measures, we feel so beaming and ty has but one member of the lower genial that we almost fancy ourselves seraphic; but wait until things do not go our way, and the seraphim is not there! Graciousness, like beauty grows one for each 4666; Sussex county one for each 5521. In the matter of from within. It cannot be put on as a garment, to be adjusted at pleasure. It must be cultured, nourished and given

the best conditions of light and heat before we will be that best creature of God-a gracious woman. In England, woman has long taken prominent part in the political campaigns, electioneering on the streets and at public meetings for the candidate of their choice. The story is told that when Wilberforce was a candidate for Hull, his sister, au amiable and witty young lady, offered to give a new gown to the wife of every young man who voted for her brother. When she made this offer at a political gathering some one shouted: "Miss Wilberforce forever!" Whereupon she pleasantly observed, "I thank you very much for the good will expressed, but really, I do not wish to be Miss Wilberforce forever!" The author of hymns, "Safe in the

Arms of of Jesus" and "Rescue the Perishing," is Miss Fanny Crosy. She has been for thirty-two years in the employ of a New York firm, writing in seventy years of age and for most of those years has been blind.

The Smyrna Times, which is edited by Mr. Robert H. Hoffecker, contains this week a philippic on the people of New Castle county, which is especially interesting at this time. Here it is in full:

The never ceasing cry of Wilming ton has been representation according to population. In a generous spirit nearly twenty years ago the Republi cans of New Gastle county were allowed increased delegation through the influence of N. B. Smithers (an act which he subsequently expressed regret for), but the Democrats of Kent and Sussex have never allowed that county more than they had in their own delecertain circumstances it is easy to be gations. The reason for this seems as obvious outgrowth of the supercilious ness of the citizens of Wilmingtonthat they are virtually the state. If the Democrats of Kent and Sussex counties feel so, the Republicans of the two lower counties have evidently a

greater reason to arrive at this con clusion by using no other criterion than the present campaign. It began with the state convention on the 12th and set up a convention for themselve the tail to their kite. We are soon have a constitutional convention. If the line, and then flounces out of the Wilmington wants to fix its status as that of a wilful, spoiled child, it has In the first place the people of Wilaccording to population, but they do

consider it their right to have renresentation, which is Just and equable. They should have a representation ap proximately in proportion to popula-tion. As it is now, New Castle counhouse of the General Assembly, for each 13,883 of population; Kent counsenators New Castle county has one for each 32,394 of population; Kent county one for each 16,888; Sussex county one for each 12.882. The injustice of this is apparent. As we have repeatedly said this cornty does not ask and does not expect to have representation according to population but it should have a fairer and a bet er representation. These figures are for the information of the Smyrns Times, inasmuch as the editor does not appear to have a proper conception of the injustice which has existed ever since the population of New Castle county increased and made the disrepancy in representation so marked. But the worst feature of the para

graph quoted in the statement that on May 12 last "a gang of men from Wilmington attempted to control the convention," etc. The untruthfulness of that declaration is so well known that it is scarcely necessary to enter a de nial. The delegates from New Castle county in that convention merely asked that the rights of the county b recognized by the convention, as had been the custom time out of mind. Rules and precedents were set aside by surprised the country and showed that that time many hymns; she is now past the delegates from Kent and Susser counties and the men from New Casle county were hooted at and threat ened with personal injury by a body o howlers who were not in the conven ion as delegates. Failing to obtain the recognition that was due them th New Castle county delegates and some of the Sussex delegates withdrew. What followed since is well known to the voters of Delaware. The gentle men who withdrew from that conver tion were in no sense "a gang." They were men of good repute and men who while insisting upon their being accorded their rights, did not seek to inyou to say such an absurd thing as lower counties. The behavior of the delegates who withdrew was marked "But I do." persisted the girl, "Boys with dignity and with a keen appre never come out. What is the reason of ciation of the step they were taking

So far as we are aware no one i abie. I think we are like victims Wilmington or in New Castle county has been crying "representation ac-cording to population." That has not been made an issue, but the fact that the delegates, afterwards resolved into the series of expensive dinners if it were Union Republican party, increased the not for that? He does not say so, and representation of both Kent and Sus-you do not say so, but you both know sex counties in their future convent is true. Of course, if I am not a tions, by twenty in each county, re succe-s-that is, if I do not have at- vealed the fact that the long-estab lished principles of the Republican be kind to me and resign yourselves to party of Delaware—that just represen Mr. Carlisle. It was an our rage of an unpardonable sort, and I have no consider me a failure all the same. General Assembly should be secured if possible-had been ignored and set aside. Wilmington and New Castle county, have always been in tie min ority and the people here expect to continue so, but they have the right to demand a fairer representation. That is all they ask. An attack upon the people of Wilmington and New Castle ounty, such as the one we quote from the Smyrna Times forms one phase of what has come to be known as Addicksism. It is nothing else. It is untrue it is ill-advised, it is contrary to one of the vital principles of the Republican party.—Morning News.

What Government Can do would be the result if the government should by legislation determine that in size, should be legal tender in any amount for "one dollar" each, and should arrange to have them so stamped in any quantity free of cost to the persons presenting them? Under such circumstances the price

of building brick would at once advance to \$1,000 a thousand, for if they could be "coined" without cost, the bricks "uncoined" would be worth just as much as the "coined" bricks-"one dollar" each. But did it ever occur to you that it would not be an advance in the value of the dollars which would thus establish a new "parity between money and property?"
